

STAINLESS STEEL AISI316 PRESSURE SWITCHES

Applications:

711023 pressure switches are used to provide protection of industrial systems with corrosive media against unwanted pressures. They are also commonly used to protect compressors and fans when starting and stopping. With robust construction designed to be long-lasting and endure the harshest conditions. They can be connected to single-phase AC motors up to 2kW power, the switch incorporated is of the SPDT type. The housing must be removed in order to modify the setpoint.

Technical data:

- Ambient temperature: -20-60°C
- Process temperature: -20+80°C
- Protection: IP66
- Cable entry: M20x1,5
- AC Load: 15 A
- DC Load: 5 A
- Accuracy: 1,5%

Materials

- Connection: AISI316
- Diaphragm: AISI316 (other materials are optional)
- Housing: Painted aluminium

Model	Range [bar]		Differential*	Rearme	Switch	Connection
71102323	0,2	2,6	0,2	automatic	SPDT	1/4" GAS F
71102326	0,5	10	0,8	automatic	SPDT	1/4" GAS F
